* Barnick owns two leaseholds and they have been combined for this report.

^a Each of these hangars appears to be used for maintenance by the FBOs which indicates a continual change in the number of aircraft in the hangar. For purposes of this report, each hangar has been assigned a capacity and occupancy of one.

^b Many of these hangars are box hangars. County staff does not have access to these hangars so it is assumed that each hangar has a capacity of 1.

^c These facilities have partial aircraft hulls/fuselages on the property. This county of parked aircraft does not include the aircraft hulls / fuselages.

^d County has 57 hangars occupied

^e One hangar is utilized for aircraft sales, one hangar belongs to an avionics repair facility, and one to an aircraft maintenance shop. Each has been assigned a capacity and occupancy of 1 for this report

^f Number based on staff observation. Leaseholder did not provided requested data.
